Annual pricing shown at monthly-equivalent rate (billed yearly). All paid plans include a 14-day free trial.

Pricing FAQ

Q: Can I switch between monthly and annual billing?

A: Yes, you can switch billing cycles anytime from Account Settings > Billing. Switching to annual applies the discounted rate starting on your next billing date, and any unused portion of a monthly payment is credited toward the new cycle.

Q: What happens when I upgrade or downgrade my plan?

A: Upgrades take effect immediately, giving you instant access to new features, with the price difference prorated for the rest of your billing cycle. Downgrades take effect at the end of your current billing period, so you keep your current features until then.

Q: Do you offer a free trial for paid plans?

A: Yes, every paid plan includes a 14-day free trial with full access to that plan's features, and no credit card is required to start. You can upgrade, downgrade, or cancel anytime before the trial ends with no obligation.

Q: Is there a discount for paying annually?

A: Yes, annual billing saves you 20% compared to paying monthly, billed as a single payment upfront for the year. You can see the exact annual total for your team size on the checkout screen before confirming.

Q: What payment methods do you accept?

A: We accept all major credit and debit cards and PayPal for Free, Pro, and Business plans. Enterprise customers can also pay via invoice or bank transfer, arranged through our sales team.
