

TaskFlow Refund & Usage Policy

Plain-language terms covering refunds, cancellations, acceptable use, and your data rights.

1. Refund Eligibility & Timeframes

We want you to feel confident subscribing to TaskFlow. Refunds are handled as follows:

- **First-time subscribers:** Full refund if requested within 14 days of your first paid charge, no questions asked.
- **Annual plans:** Prorated refund available within the first 30 days; after that, refunds are issued only for unused months at our discretion.
- **Monthly plans:** No partial-month refunds after the 14-day window, but you won't be charged again after cancellation.
- **Billing errors or duplicate charges:** Refunded in full as soon as verified, regardless of timeframe.
- **Enterprise plans:** Refund terms follow the specific agreement signed with our sales team.

To request a refund, email billing@taskflow.example.com with your account email and reason. Approved refunds are returned to the original payment method within 5–10 business days.

2. Subscription Cancellation Terms

- Cancel anytime from Account Settings > Billing — no phone calls or forms required.
- You keep access to paid features until the end of your current billing period; we don't cut you off mid-cycle.
- Cancelling does not automatically delete your data — your workspace moves to the Free plan's limits after the period ends.
- There are no long-term contracts or early-termination fees on monthly or annual self-serve plans.
- Enterprise contracts may include a notice period as specified in the signed order form.

3. Acceptable Use Policy

TaskFlow is built for legitimate project and task management. By using TaskFlow, you agree not to:

- Use the platform for unlawful, fraudulent, or harmful activity.
- Upload malware, attempt to breach security, or interfere with other users' access.
- Resell, sublicense, or white-label TaskFlow without a written partner agreement.
- Exceed reasonable API or automation limits in ways that degrade service for others.
- Share account credentials outside your organization or circumvent per-seat billing.

Violations may result in a warning, suspension, or termination of your account, depending on severity.

4. Data Ownership & Export Rights

- You own all data you create in TaskFlow — projects, tasks, comments, files, and attachments.
- You can export your data at any time in CSV, JSON, or PDF format from Account Settings > Data Export.
- Upon cancellation, your data remains available for export for 30 days, after which it may be permanently deleted.
- We do not sell your data, and we only access it to provide support or as required by law.
- Enterprise customers can request a full data export or migration package by contacting their account manager.
